MEMORANDUM FOR DISTRIBUTION

SUBJECT: Assessment of U.S. and Coalition Efforts to Develop the Logistics and Maintenance Sustainment Capability of the Afghan National Police (Project No. D2014-D00SPO-0129).

We plan to begin our assessment immediately. The objective of this project is to assess the planning and execution of Afghan National Police (ANP) logistics, supply, and maintenance systems developed and implemented by U.S. and Coalition forces in Afghanistan. Specifically, we will evaluate:

- whether U.S. and Coalition goals, objectives, plans, guidance, and resources are sufficient to effectively develop, manage, and transition logistics, supply, and maintenance systems to the ANP in 2014,
- U.S. and Coalition plans to transition ANP logistics and maintenance processes to Afghan lead and to mitigate the impact of delays in supply transition, and
- whether U.S. and Coalition plans and resources will effectively support ANP logistics, supply, and maintenance systems sustainment and continued development beyond 2014.

We plan to visit or contact organizations in the U.S., U.S. Central Command area of responsibility, and Afghanistan that are responsible for developing the logistics sustainment capability of the Ministry of the Interior and ANP. We also plan to visit NATO and partner nation representatives involved with this process. Specific organizations to be visited will be identified during the assessment, and visit arrangements will be made through official points of contact.

Please provide us a point of contact for this assessment in writing. The point of contact must be a Government employee, either a GS-15 or the military equivalent. Send the contact's name, title, grade, phone number, and e-mail address to [REDACTED] or [REDACTED] within 10 days of the date of this announcement.
