SUBJECT: Audit of Chemical and Biological Defense Training for U.S. Forces in Korea
(Project No. D2014-D000RF-0204.000)

We plan to begin the subject audit in August 2014. Our objective is to determine whether forward-deployed forces assigned to U.S. Forces Korea are trained to defend against chemical and biological agents. This is the second in a series of audits on chemical and biological defense preparedness. We will consider suggestions from management on additional or revised objectives.

We will perform the audit at select military locations in the Republic of Korea. We may identify additional locations during the audit.

Please provide us with a point of contact for the audit within **10 days** of the date of this memorandum. The point of contact should be a Government employee—a GS-15, pay band equivalent, or the military equivalent. Send the contact's name, title, grade/pay band, phone number, and e-mail address to audrco@dodig.mil.
