## Message from the Inspector General

*Honorable Robert P. Storch*

On behalf of the Department of Defense Office Inspector General (DoD OIG), I am pleased to present this Semiannual Report to Congress describing the results of oversight work performed by our auditors, evaluators, investigators, special agents, and other professionals during the reporting period of April 1 through September 30, 2023.

During this reporting period, I was honored to be selected by the Chair of the Council of the Inspectors General on Integrity and Efficiency (CIGIE) to serve as the Lead Inspector General (Lead IG) for Operation Atlantic Resolve (OAR). The DoD OIG will work closely with its Lead IG partners—the Department of State (State) and U.S. Agency for International Development (USAID) OIGs—to continue to deliver comprehensive and effective oversight of U.S. assistance to Ukraine and the broader operation. To perform this oversight, the DoD OIG has a dedicated team of auditors, evaluators, investigators, and other staff based in the United States and forward deployed in Germany and Eastern Europe, including in Ukraine.

During the reporting period, our Audit and Evaluations Components issued 13 reports and advisories related to the U.S. response to the full-scale invasion of Ukraine. Following our February 2023 evaluation regarding pre-positioned stocks of military equipment, we issued a management advisory in May 2023 that identified additional concerns in the readiness of U.S. military equipment selected to support the Ukrainian Armed Forces. These concerns caused unanticipated maintenance and repairs and could lead to future delays for equipment provided to the Ukrainian Armed Forces. Another significant example of our Ukraine-related work is our oversight of the DoD's efforts to perform enhanced end-use monitoring (EEUM), which safeguards defense articles that require additional layers of protection. One management advisory determined that the current list of EEUM-designated defense articles is not regularly updated because there was no procedure to keep the list current. This created a risk that the EEUM list includes items that are not sensitive and, therefore, do not require protection. Another management advisory found that there were not enough designated and trained personnel available at logistics hubs outside Ukraine to track all equipment requiring EEUM before it entered the country. Other evaluations and audits looked at important issues such as the training of the Ukrainian Armed Forces and the replenishment of weapons and materiel. While we conducted this comprehensive set of audits and evaluations, the DoD OIG's Defense Criminal Investigative Service (DCIS) continued to leverage its significant experience conducting investigations in conflict zones, coordinating the development and approval of an information sharing agreement between the DoD OIG and the National Anti-Corruption Bureau of Ukraine to facilitate investigations related to U.S. security assistance for Ukraine. We will continue to conduct a full range of oversight related to U.S. security assistance to Ukraine for as long as that assistance, and the need for oversight, continues.

I also continued to serve as the Lead IG for Operation Inherent Resolve, related to Syria and Iraq, and Operation Enduring Sentinel regarding Afghanistan during the reporting period. In April, I testified before the House Committee on Oversight and Accountability on the DoD OIG's extensive oversight work regarding the DoD's presence in and ultimate withdrawal from Afghanistan. For both of these operations, our Overseas Contingency Operations (OCO) Component sustained its quarterly reporting, which provides information to Congress and the public on the operations and identifies completed, ongoing, and planned oversight work by us and our partners.

Overall, our oversight of the DoD during the reporting period resulted in a total of 60 audit and evaluation reports and management advisories that made 298 recommendations to the DoD for improvements in a broad range of programs and operations. For example, we determined that the DoD has not reported any inventory for the F-35 Joint Strike Fighter (JSF) program since 2006. The JSF program is the single most expensive defense program with an estimated total lifecycle of \$1.7 trillion. Since 2019, the JSF program has been a material weakness, significantly impacting the DoD's financial statements and contributing to the DoD's inability to achieve a clean audit opinion. In another example, an audit report detailed the lack of uniform triage and treatment of sexual assault victims who received care and explained that this resulted in the DoD's inability to verify whether emergency department providers gave sexual assault victims access to needed care and services. In addition, an evaluation determined that DoD contracting officers did not always document adequate rationale for settling termination costs in accordance with the Federal Acquisition Regulation and DoD policy. As a result, DoD contracting officers may have inappropriately reimbursed DoD contractors up to \$22.3 million in unallowable termination costs.

Our Diversity and Inclusion and Extremism in the Military (DIEM) Component planned and conducted oversight of policies, programs, systems, and processes regarding diversity and inclusion in the DoD, and the prevention of and response to supremacist, extremist, and criminal gang activity in the Armed Forces. The DoD OIG issued seven reports related to the DIEM mission, and continued to engage with the Military Departments regarding the implementation of Service-specific policies for reporting prohibited activities.

Alongside our audits, evaluations, and reviews, our Administrative Investigations Component completed 2 senior official investigations and oversaw a combined total of 177 senior official misconduct, whistleblower reprisal, and Service member restriction investigations conducted by the Military Service and Defense agency OIGs. We also substantiated allegations that the former Principal Deputy and Acting Assistant Secretary of Defense for International Security Affairs failed to treat subordinates with dignity and respect and engaged in harassment that adversely affected employees through the creation of a hostile work environment.

Beyond its Ukraine-related work, our criminal investigations Component, DCIS, continued to investigate public corruption and financial crimes that undermined the integrity of DoD acquisitions. In a recent DCIS investigation, a former Air Force civilian employee was sentenced to over 15 years in Federal prison for fraud. In a scheme that spanned 10 years, the employee conspired with others who paid him more than \$2.3 million in cash and bribes to obtain \$100 million in contract awards on Air Force projects.

During this period, we encountered difficulties with timely responses from the DoD, specifically regarding provision of information and security reviews of our reports. A Navy command initially refused to provide requested records to DoD OIG evaluators based on its misunderstanding of the DoD OIG's jurisdiction and authority to have access to all information available to the DoD. After significant engagement between DoD OIG, DoD, and Navy leadership, the matter was resolved and the requested records were provided. We also noted a number of instances in which some Service Components have attempted to assert privileges in response to a DoD OIG request for information; however, we have successfully resolved all such matters to date. Finally, the U.S. Army Europe and Africa and the Security Assistance Group-Ukraine have exceeded established timelines in providing the security reviews for some of our reports, resulting in delays in the reports. We continue to work with the Department to address these issues.

I want to close by thanking the DoD OIG's global workforce of more than 1,770 employees for their remarkable dedication and outstanding efforts in carrying out our independent oversight mission. Our team looks forward to continuing that important work for the DoD, Congress, and the American taxpayers.

Robert P. Storch

## SIGNIFICANT PROBLEMS, ABUSES, AND DEFICIENCIES

---

This section provides a description of significant problems, abuses, and deficiencies relating to the administration of programs and operations of the establishment and associated reports and recommendations for corrective action made by the Office. Click on the report title to read the report.

### **Management Advisory: Maintenance Concerns for the Army's Prepositioned Stock-5 Equipment Designated for Ukraine**

The DoD OIG informed the Department of the Army, Army Materiel Command, Army Sustainment Command, and U.S. European Command (USEUCOM) officials responsible for the designation and transfer of military equipment to the Ukrainian Armed Forces (UAF) of concerns regarding the readiness of Army Prepositioned Stock-5 (APS-5) equipment. The DoD OIG identified issues that resulted in unanticipated maintenance, repairs, and extended lead times to ensure the readiness of the military equipment selected to support the UAF. Specifically, the DoD OIG found that 25 of 29 M1167 High-Mobility Multipurpose Wheeled Vehicles and all six M777 howitzers were not mission ready and required repairs before USEUCOM could transfer the equipment to the UAF. Issues with poor maintenance and lax oversight of APS-5 equipment could result in future delays for equipment provided to the UAF. In addition, if the U.S. Military needed this equipment, it would have encountered the same challenges. The DoD OIG recommended that the Army consider the level of maintenance and lead time required before selecting APS-5 equipment for sourcing UAF requirements; implement increased inspection procedures to validate that the contractor has properly corrected the maintenance deficiencies; and conduct an inspection of equipment, correcting deficiencies before shipping the equipment to USEUCOM for transfer to the UAF.

### **Management Advisory: DoD's Ability to Financially Report Joint Strike Fighter Inventory**

The DoD OIG alerted the DoD to continued problems with reporting F-35 Joint Strike Fighter (JSF) inventory. The F-35 JSF Program is the single largest defense program with an estimated total lifecycle cost of \$1.7 trillion. Since the program's inception in 2006, the DoD has not reported any inventory for the F-35 JSF program in its Agency-Wide Financial Statements. Additionally, since 2019, the DoD OIG has identified the F-35 JSF program as a material weakness impacting the DoD's ability to achieve a clean audit opinion. A lack of JSF inventory records could have a negative operational impact leading to uninformed logistical and budgetary decisions. Among other recommendations, the DoD OIG recommended that the DoD ensure that it has access to a complete and accurate JSF inventory; hold the contractor accountable for not meeting contract requirements; coordinate with stakeholders to develop a plan of action for the accountability and reporting of the JSF inventory; and determine a means of reporting or disclosing the value of JSF material on the DoD financial statements.

### **Audit of Triage and Support Services for Sexual Assault Victims at DoD Medical Treatment Facilities**

The DoD OIG determined that emergency department (ED) providers did not assign consistent triage levels for sexual assault victims who received care during FY 2021. Specifically, the DoD did not assign consistent triage levels for 43 (21 percent) out of the 209 sexual assault victims included in the team's review. This occurred because DoD guidance does not prescribe a specific or minimum triage level for sexual assault victims. The assignment of inconsistent triage levels could result in sexual assault victims not receiving medical care and critical support services in a timely manner at DoD medical treatment facilities, which could prolong the physical and emotional harm of those victims. In addition, ED providers did not consistently document triage levels; Sexual Assault Forensic Examination offers; or notification information for sexual assault victims who received emergency care at medical treatment facilities during FY 2021. The ED providers did not document care because the DoD did not require it.

As a result, responsible DoD officials cannot verify whether ED providers gave sexual assault victims access to needed care and services. The DoD OIG recommended that the DoD conduct a study concerning triage levels for sexual assault victims, review industry standards, revise DoD guidance to prescribe a specific triage level for sexual assault victims, and develop a process to review and ensure that ED providers implement and consistently apply the new guidance.

## **Management Advisory: DoD Review and Update of Defense Articles Requiring Enhanced End-Use Monitoring**

The DoD OIG determined that the current list of enhanced end-use monitoring (EEUM) designated defense articles was not up to date. This occurred because the Defense Security Cooperation Agency (DSCA) did not include a regular and recurring requirement in the Security Assistance Management Manual to review, update, and remove defense articles designated for EEUM. As a result, the current EEUM list in the Security Assistance Management Manual may require monitoring defense articles that are neither sensitive nor require protection. This would be an inefficient use of limited Office of Defense Cooperation resources to perform EEUM. The DoD OIG made three recommendations to the Director of the DSCA. The recommendations included reviewing, analyzing, and updating the list of defense articles currently designated as requiring EEUM. The DoD OIG also recommended adding a recurring requirement to review and update the list of all defense articles provided to foreign nations to ensure designation of those requiring EEUM.

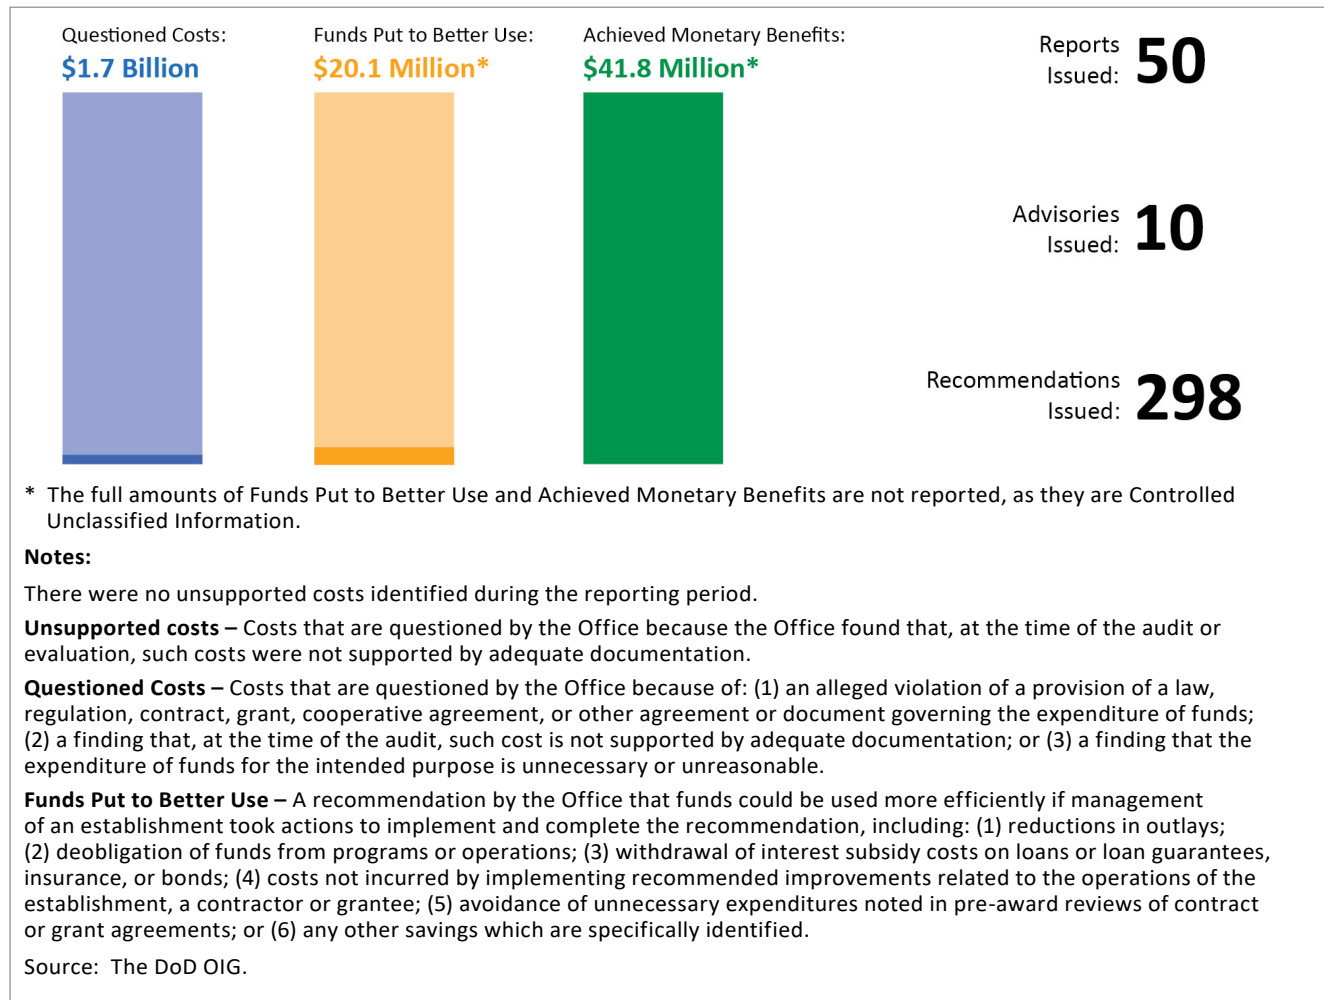

## **Evaluation of DoD Contracting Officer Actions on DoD Contracts Terminated for Convenience**

The evaluation determined that DoD contracting officers did not always document adequate rationale for settling costs for contracts terminated for convenience as the Federal Acquisition Regulation and DoD policy required. As a result, DoD contracting officers might have inappropriately reimbursed DoD contractors up to \$22.3 million in unallowable termination costs. Furthermore, DoD contracting officers did not complete the disposition of Defense Contract Audit Agency (DCAA) audit reports in a timely manner, and DoD contracting officers did not always estimate funds required to settle the termination or release excess funds. As a result, the untimely settlement of audit findings can result in the delayed recovery of unallowable costs. The DoD OIG made 28 recommendations for improvement. Specifically, the DoD OIG recommended that the Defense Contract Management Agency (DCMA), Army, and Air Force determine the allowability of the \$22.3 million and take the necessary steps to recover any unallowable costs. In addition, the DoD OIG recommended that the DCMA, Army, Navy, and Air Force develop and implement a requirement to provide periodic training to DoD contracting officers on DoD policy requirements.

## AUDITS AND EVALUATIONS

The Audit Component conducts audits of DoD operations, programs, systems, and functions. The Evaluations Component conducts evaluations of DoD operations, programs, policies, and procedures. Evaluations also conducts assessments of DoD programs and peer reviews of DoD audit components. This section provides statistical highlights and a list of audit and evaluation reports and management advisories issued during the reporting period.

Figure 1. Audit and Evaluations Statistical Highlights

## Oversight Products Issued

During the reporting period, the DoD OIG issued 50 audit and evaluation reports and 10 management advisories. Click on the report title for more information regarding the report and, as applicable, the total dollar value of questioned costs (including a separate category for the dollar value of unsupported costs) and the dollar value of recommendations that funds be put to better use.

## Oversight Products Not Publicly Disclosed

This section provides descriptions of audits, evaluations, and special reports that the DoD OIG did not disclose to the public. We cannot prepare an unclassified summary for Report No. DODIG-2023-121 due to the amount of Controlled Unclassified Information and classified information in this report. Click the report title to view it.

### **DODIG-2023-092, “Management Advisory: DoD’s Transportation of Ammunition in Support of Ukraine”**

This management advisory addressed the timely transportation of ammunition from European ports to its final destination. The DoD OIG recommended that USEUCOM complete a review of logistical support business rules to identify and implement changes necessary to ensure the efficient transfer of ammunition to Ukraine. The DoD OIG also recommended that USEUCOM conduct a review to examine and consider implementing other means of rapidly delivering ammunition to Ukraine.

### **Report No. DODIG-2023-095, “Special Report: Review of DoD OIG-Issued Reports Related to Protecting Classified Information”**

This special report highlighted lessons learned and best practices related to cyber and physical security weaknesses identified in previously issued audit and evaluation reports. From 2013 to 2023, the DoD OIG issued 31 audits, 22 evaluations, and 2 special reports that included 690 recommendations regarding DoD programs, policies, and procedures related to DoD cybersecurity, operations and physical security, information security, personnel security, and insider threat programs. Of the 690 recommendations made over the past decade, 185, or just over 25 percent, remained open as of May 2023. The report noted that the DoD taking action to address the 185 recommendations that remained open could significantly strengthen the DoD’s security posture and improve its ability to protect classified information. Related to this review, the DoD OIG held Gold Standard meetings with Office of the Under Secretary of Defense for Intelligence and Security senior leadership. Gold Standard meetings are discussed in the “Other Oversight Matters” section of this report.

### **Report No. DODIG-2023-099, “Evaluation of DoD Replenishment Plans for Equipment and Munitions Provided to the Government of Ukraine”**

The objective of this evaluation was to determine the extent to which the DoD planned to restock the equipment and munitions that it provided to the Government of Ukraine through the presidential drawdown authority. The evaluation determined that DoD officials planned to replenish 15 of the 18 line items in the DoD OIG’s sample of equipment and munitions provided to the Government of Ukraine. Furthermore, DoD officials did not plan to replenish the remaining 3 of the 18 line items that were excess munitions. The DoD OIG recommended that the Under Secretary of Defense for Policy update the existing drawdown process to include the roles and responsibilities for assessing the cumulative impact of presidential drawdowns on the current and long-term readiness posture across the DoD.

### **Report No. DODIG-2023-109, “Evaluation of DoD’s Actions Regarding Unidentified Anomalous Phenomena”**

The objective of this evaluation was to determine the extent to which the DoD, Military Services, Defense agencies, and Military Department counterintelligence organizations took intelligence, counterintelligence, and force protection actions to detect, report, collect, analyze, and identify unidentified anomalous phenomena. The report included five recommendations. The DoD OIG plans to release an unclassified overview of this report in the future.

### **Report No. DODIG-2023-116, “Evaluation of DoD Intelligence Agencies’ Use of Human Language Technology”**

The objective of this evaluation was to determine the extent to which DoD intelligence agencies developed and integrated human language technology to support multi discipline intelligence collection, analysis, and production. The report contained two recommendations.

**Report No. DODIG-2023-119, “Audit of Enhanced End-Use Monitoring of Sensitive Equipment Given to the Government of Iraq”**

The DoD OIG determined that, during the period from early 2019 through mid-2022, the DoD did not conduct EEUM in accordance with applicable requirements for sensitive equipment provided or sold to the Government of Iraq. It further identified how removing equipment that no longer required EEUM and applying approved alternate procedures for EEUM could result in efficiencies in the program and funds put to better use. The audit identified additional steps that should be taken to ensure that sensitive equipment provided or sold to the Government of Iraq is subject to appropriate monitoring. These included recommendations that the U.S. Central Command develop guidance for conducting virtual EEUM inspections and provide minimum requirements for conducting quarterly end-use monitoring database reviews. Additionally, the DoD OIG recommended that the Office of Security Cooperation–Iraq develop a plan of action to obtain and maintain 100 percent accountability of sensitive equipment and develop a plan for continuity in the end-use monitoring program manager position.

**Report No. DODIG-2023-122, “Evaluation of Intelligence Sharing in Support of Ukraine”**

The objective of this report was to evaluate DoD intelligence sharing in support of Ukraine. The DoD OIG made one unclassified and three classified recommendations to assist the DoD organizations involved in policy development, oversight, and the provision of security assistance through intelligence sharing in support of Ukraine.

**Review of the Air Force’s Office of Special Investigations Internal Control Systems for Criminal Investigations and Supporting Programs**

During the reporting period, the DoD OIG’s Evaluations Component completed a quality assurance review of the Air Force Office of Special Investigations’ (OSI) internal control systems for criminal investigators and supporting programs. The report made two recommendations.

# INVESTIGATIONS

## DCIS Investigative Statistics

The DCIS investigates criminal matters related to DoD programs and operations.

## DCIS Senior Official Investigations

The DCIS completed the following investigations involving senior Government employees, General Schedule (GS)-15 and above (including members of the Senior Executive Service and Senior-level employees), or military officers pay grade O-6 and above, in which the allegations of misconduct were substantiated or the investigation was closed during the reporting period and not disclosed to the public.

### Substantiated

The DCIS and the Army Criminal Investigation Division investigated an Army captain (O-3), who served as a supply officer in the 3rd Special Forces Group (SFG). The investigation revealed that the captain and his wife created a company to defraud the Government. The case was referred to the Department of Justice on October 12, 2018, and on September 8, 2021, the company pleaded guilty to one count of 18 U.S.C. § 641, “Theft of Government Funds,” and the captain pleaded guilty to one count of 18 U.S.C. § 208(a), “Acts Affecting a Personal Financial Interest.” On March 9, 2022, the captain and the company were sentenced to 36 months of probation and restitution of \$82,845.

The investigation also revealed that an Army colonel (O-6), who was the former commander of the Group Support Battalion for the 3rd SFG, participated in the scheme to defraud the Government by signing a sole-source justification on behalf of the company and authorizing its submission to the installation contracting command. The colonel helped plan the scheme to use the company, was fully aware that contracted training did not take place, and knew that the captain and his wife profited from the arrangement. The investigation did not reveal evidence that the colonel financially benefitted from the scheme. On March 23, 2022, the Department of Justice declined prosecution. On December 9, 2022, a General Officer Memorandum of Reprimand was placed in the colonel’s Army Military Human Resource Record for conspiracy, making a false official statement, and conduct unbecoming of an officer. The investigation was closed on August 8, 2023.

## Not Substantiated

- The DCIS and Air Force OSI investigated allegations that an Air Force civilian employee (GS-15) and a subordinate steered resources and contracts to a specific contractor. The investigation did not substantiate the allegations. On June 23, 2023, the Department of Justice declined prosecution.
- The DCIS investigated allegations that a Department of the Army civilian employee (GS-15) violated conflict of interest laws by maintaining employment with a private company while serving as a Government employee. On May 5, 2023, the Department of Justice declined prosecution as there was no monetary loss to the Government and the employee retired.
- The DCIS, Air Force OSI, and FBI investigated allegations that a Defense Information Systems Agency employee (GS-15) had an improper relationship with an on-site contractor and may have received kickbacks from that contractor. The investigation did not substantiate the allegations. On February 22, 2023, the Department of Justice declined prosecution.
- The DCIS and Army Criminal Investigation Division investigated allegations that an Army colonel (O-6) improperly directed contracts to a specific contractor. The investigation did not substantiate the allegations, and the matter was closed without referral to the Department of Justice.

## Senior Official Administrative Investigations

The Investigations of Senior Officials (ISO) Directorate investigates allegations of misconduct involving senior Government employees (three-star generals and flag officers, and above), DoD political appointees, senior officials in the Joint or Defense Intelligence Community, and members of the Senior Executive Service, as well as allegations not suitable for assignment to Military Services or Defense agency OIGs. The following investigations either substantiated allegations of misconduct or were closed during the reporting period and not disclosed to the public. The following reports include the name of the senior Government employee, if the name was already made public by the DoD OIG, and the status and disposition of the matter, including whether the matter was referred to the Department of Justice, the date of the referral, whether the Department of Justice declined the referral, and if so, the date of the declination.

### Substantiated

ISO substantiated one senior official case during the reporting period and published the results of the case in the report. The case was not referred to the Department of Justice for prosecution. To view the report of investigation, click on the report title.

*Table 3. Substantiated Senior Official Investigations*

|---|----------------|
| Report of Investigation: Mr. Michael Cutrone Former Principal Deputy And Acting Assistant Secretary Of Defense for International Security Affairs | DODIG-2023-077 |

Source: The DoD OIG.

### Not Substantiated

ISO did not substantiate allegations against one senior official during the reporting period.

## Whistleblower Reprisal Investigations

The Whistleblower Reprisal Investigations (WRI) Directorate investigates allegations of whistleblower reprisal against members of the Armed Forces, appropriated fund (civilian) employees, employees of DoD contractors, and nonappropriated fund instrumentality employees. WRI did not close any investigations involving allegations of reprisal against a senior Government employee, GS-15 and above (including members of the Senior Executive Service and Senior-level employees), or military officers pay grade O-6 and above during the reporting period. WRI also did not close any substantiated cases involving allegations of whistleblower reprisal against members of the Armed Forces, appropriated fund (civilian) employees, employees of DoD contractors, or nonappropriated fund instrumentality employees during the reporting period.

## Office of Professional Responsibility Investigations

The Office of Professional Responsibility (OPR) investigates allegations of misconduct by DoD OIG employees and military personnel and develops reports of investigation for management to consider in weighing the appropriateness of taking disciplinary action.<sup>2</sup> During the reporting period, OPR issued three reports of investigation, one of which related to a senior Government employee, GS-15 and above. OPR referred one case to the Department of Justice, and it declined to prosecute. OPR did not substantiate any allegations of reprisal.

### Substantiated

During the reporting period, OPR investigated an allegation that a DoD OIG GS-15 supervisor may have harassed a subordinate employee by making demeaning comments, such as telling the employee that the employee was being pretentious, acting as if the employee was better than everyone else, and that no one talks to the employee and no one ever will. During the investigation, OPR received an allegation that the supervisor requested inappropriate personal pictures from another subordinate employee. The facts did not support the allegation of harassment. However, OPR determined the facts were sufficient to substantiate unprofessional conduct by the supervisor for the demeaning comments and the request by the supervisor to another subordinate employee for inappropriate personal pictures. Management reviewed the matter and determined that the totality of the circumstances did not warrant disciplinary action.

<sup>2</sup> We refer complaints against the DoD Inspector General and other designated DoD OIG officials to CIGIE's Integrity Committee, as required.

# DIVERSITY AND INCLUSION AND EXTREMISM IN THE MILITARY

The Diversity and Inclusion and Extremism in the Military (DIEM) Component has specific statutory reporting requirements that include preparing semiannual and occasional reports to the Secretary of Defense and the DoD IG and publishing annual reports to the congressional committees on the Armed Forces.

## Portfolio Management

The July 27, 2022 Deputy Secretary of Defense memorandum regarding extremist and criminal gang activities requires the Military Departments (MILDEP) to standardize policy, processes, tracking, and reporting allegations of prohibited activity by members of the Armed Forces through their respective Inspectors General to the DoD OIG.<sup>3</sup> DIEM personnel coordinated with three Military Service OIGs on the status for implementing Military Department policies for this reporting requirement. The MILDEP policies were approved as edited in June 2023 by the Under Secretary of Defense for Personnel and Readiness. One policy required restaffing and resubmission to the MILDEP Secretary. Following final approval and implementation, the Military Service Inspectors General will submit prohibited activity allegations and related information to the DoD OIG.

DIEM personnel coordinated with the DoD OIG’s Administrative Investigations Component using an established process for tracking and reporting prohibited activity allegations received by the DoD Hotline, allegations referred for inquiry, inquiry results, and actions taken on substantiated allegations of prohibited activity by a Service member. DIEM personnel worked with DoD Hotline personnel to document and track:

- prohibited activities alleged among members of the Armed Forces;
- referrals of allegations for inquiry to OIGs, Military Criminal Investigative Organizations, DoD Components and agencies, and Federal and local law enforcement agencies;
- inquiry results from such referrals; and
- actions taken or not taken for such referrals.

*Table 4. Prohibited Activity Data from April 1 Through September 30, 2023*

## OTHER OVERSIGHT MATTERS

### Section 804(b) of the Federal Financial Management Improvement Act of 1996

Section 804(b) of the Federal Financial Management Improvement Act (FFMIA) requires IGs to report in their Semiannual Reports to Congress instances and reasons when an agency has not met the intermediate target dates established in its remediation plans required by the FFMIA. Section 803(a) of the FFMIA requires agencies to implement and maintain financial management systems that comply substantially with Federal financial management systems requirements, applicable Federal accounting standards, and the U.S. Government Standard General Ledger at the transaction level. In the DoD Agency Financial Report for FY 2022, DoD management stated that the DoD did not comply with section 803(a) of the FFMIA. The DoD's financial systems do not provide the capability to record financial transactions in compliance with Federal financial management requirements, applicable Federal accounting standards, and the U.S. General Ledger at the transaction level. The lack of compliance contributes to a number of other material weaknesses, and the DoD does not expect a correction of this material weakness until FY 2028. Additionally, the DoD OIG discussed the DoD's FFMIA compliance issues in the DoD OIG Independent Auditor's Reports on the FY 2022 and FY 2021 DoD Agency-Wide financial statements.

### Review of Legislation and Regulations

In addition to working with the DoD and Congress to amend existing law, pursuant to the IG Act, the DoD OIG also independently reviews proposed legislation relating to the programs and operations of the DoD. During the reporting period, the DoD OIG reviewed proposed legislation at the request of congressional staff, the DoD, and CIGIE. For example, the DoD OIG provided input on draft language to the House and Senate Armed Services Committees specific to ongoing DoD OIG work in the area of military suicide prevention and reviewed proposed CIGIE legislation that would amend section 5274 of the FY 2023 National Defense Authorization Act. The DoD OIG also reviewed and commented on a number of legislative proposals to establish a Special IG to oversee U.S. Government assistance to Ukraine.

### Gold Standard Meetings with the DoD

Office of Management and Budget (OMB) Memorandum M-22-04, December 3, 2021, promoted Federal accountability through cooperation among agencies and Inspectors General. Consistent with the OMB Memorandum, "Gold Standard" meetings are a relatively new model for coordinated oversight designed to provide the DoD with the benefit of lessons learned from prior DoD OIG oversight work that can reduce fraud and improve the effectiveness of new programs. The following summaries detail the five Gold Standard meetings held during the reporting period.

In May 2023, Audit and Evaluations personnel held a Gold Standard meeting with officials from the Office of the Under Secretary of Defense for Intelligence and Security (OUSD[I&S]). This Gold Standard meeting provided DoD officials with insights on the results of past oversight work affecting DoD security, as discussed in Report No. DODIG-023-095, "Special Report: Review of DoD OIG-Issued Reports Related to Protecting Classified Information." Based on the success of this meeting, the DoD OIG and OUSD(I&S) agreed to future discussions on topics and open recommendations related to security issues, with two follow-up meetings occurring in August 2023.

Also in August 2023, the Deputy Inspector General for DIEM met with the Chief Talent Management Officer for the DoD and the Director of the DoD Office for Diversity, Equity, and Inclusion to discuss areas in which the mission sets for each office overlap, the value of independent oversight, and how to deliver impactful change.

In September 2023, Audit and DoD OIG Office of General Counsel personnel held a Gold Standard meeting with the Principal Deputy Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency and Senior Intelligence Oversight Official. The Gold Standard meeting focused on the information the DoD OIG identified while researching a potential audit on commercially available information that could inform a Deputy Secretary of Defense-directed working group’s efforts to develop a framework and associated policy for acquiring and using commercially available information.

## Overseas Contingency Operations

Upon designation, the Lead IG works with its two counterparts under the Lead IG model to ensure whole-of-government oversight of all Federal programs and operations conducted in support of an Overseas Contingency Operation (OCO). To do so, the Lead IG prepares a comprehensive oversight plan and submits quarterly reports on the OCO to Congress that are also posted on the DoD OIG’s public webpage. During this reporting period, the DoD IG was the Lead IG for Operation Enduring Sentinel and Operation Inherent Resolve and issued quarterly reports for the two OCOs. The DoD OIG also issued classified appendixes for the two OCOs and provided those documents to relevant agencies and congressional committees. The Lead IG agencies issued the FY 2024 Comprehensive Oversight Plan for Overseas Contingency Operations on September 29, 2023.

As the Lead IG for Operation Enduring Sentinel, the Honorable Robert P. Storch, DoD IG, testified before the House Committee on Oversight and Accountability on the DoD OIG’s work related to DoD operations in Afghanistan and the withdrawal. To read the DoD IG’s written statement, click on the hearing title.

On September 18, 2023, the Chair of the Council of the Inspectors General on Integrity and Efficiency (CIGIE) named the DoD IG as the Lead IG for Operation Atlantic Resolve (OAR), effective October 18, 2023. The DoD OIG is working closely with the State and U.S. Agency for International Development (USAID) OIGs to begin quarterly reporting to Congress on OAR and to finalize a comprehensive Joint Strategic Oversight Plan for OAR, which includes U.S. security assistance to Ukraine. Since Russia’s full-scale invasion of Ukraine, U.S. security assistance to Ukraine currently totals approximately \$113 billion in U.S. assistance for security, economic, and humanitarian assistance.

## Ukraine Oversight

During the reporting period, oversight of the security assistance provided to Ukraine continued to be a matter of the highest priority for the DoD OIG. The Lead IG agencies—DoD OIG, State OIG, and USAID OIG—performed audits, evaluations, and investigations to promote economy, efficiency, and effectiveness and prevent fraud, waste, and abuse in U.S. Government support provided to Ukraine.

During the current reporting period, the DoD OIG issued 13 reports and management advisories related to Ukraine, including 7 audit and evaluation reports, 1 special report, and 5 management advisories. # APPENDIX A: PEER REVIEWS

---

## Peer Reviews of the DoD OIG

The following is a summary of a peer review of the DoD OIG conducted during the reporting period.

### Peer Review of the DoD OIG Investigations Organization

The Department of Health and Human Services OIG (HHS-OIG) conducted an external peer review of the DCIS during February 2023 and issued its final report on September 21, 2023. HHS-OIG concluded that the system of internal safeguards and management procedures employed by DCIS complies with the quality standards established by CIGIE and other applicable guidelines and statutes.

## Peer Reviews Conducted by the DoD OIG

The DoD OIG performed three peer reviews during the reporting period.

### Peer Review of the Department of Interior Office of Inspector General Office of Audits, Inspections, and Evaluations

The DoD OIG reviewed the Department of the Interior Office of Audits, Inspections, and Evaluations (DOI-OIG-AIE) operations for the period ending March 31, 2022, and issued a final peer review report regarding their evaluations on August 30, 2023. The external peer review report concluded that the DOI-OIG-AIE's policies and procedures were generally consistent with the seven quality standards addressed in evaluation peer reviews—*independence, competence, planning, evidence collection and analysis, reporting, follow-up, and quality control*. In addition, the DoD OIG reviewed four DOI-OIG-AIE reports and concluded that they generally complied with the CIGIE "Quality Standards for Inspection and Evaluation," published in December 2020.

### Peer Review of the Naval Audit Service

The DoD OIG and the Air Force Audit Agency reviewed the system of quality control for the Naval Audit Service in effect for the period ending December 31, 2021. The Naval Audit Service received an external peer review rating of *pass with a deficiency*. The deficiency involved a structural threat to independence. The deficiency did not rise to the level of a significant deficiency as defined in the CIGIE, "Guide for Conducting Peer Reviews of Audit Organizations of Federal Offices of Inspector General," published in March 2020.

### Peer Review of the Defense Logistics Agency Office of the Inspector General Audit Organization

The DoD OIG reviewed the system of quality control for the Defense Logistics Agency (DLA) Office of the Inspector General Audit Organization in effect for the 3-year period ending September 30, 2022. The DLA Office of the Inspector General Audit Organization received an external peer review rating of *pass*.

## DoD Audit Agencies

No DoD audit agencies received a failed opinion or were overdue for an external peer review.

## APPENDIX B: CONTRACT AUDITS

### Final Completed Contract or Contract-Related Audits Containing Significant Findings

During the reporting period, the DoD OIG issued 4 completed contract audit or evaluation reports, and the Defense Contract Audit Agency (DCAA) issued 23 final, completed contract audit reports to contracting activities containing significant audit findings.

| <b>Audit Report No. DODIG-2023-064</b>   | <b>Date:</b> April 20, 2023 |
| <b>Subject:</b> Audit of Operation Allies Welcome Contract Oversight at DoD Installations—Logistics Civil Augmentation Program V Contract  |                             |
| <b>Report:</b> \$1.6 Billion Total Questioned Costs  |                             |
| The DoD OIG issued a report finding that the Army procuring contracting officer did not ensure invoices were reviewed before payment to verify contractor-reported costs. This occurred because the procuring contracting officer solely relied on the Defense Contract Audit Agency prepayment reviews, which did not address whether invoiced amounts were allowable, allocable, or reasonable. As a result, the Army did not have assurance that the \$1.6 billion paid to the contractor was allowable, allocable, and reasonable. |                             |

|  |                             |
|--|-----------------------------|
| <b>Audit Report No. DODIG-2023-066</b>   | <b>Date:</b> April 27, 2023 |
| <b>Subject:</b> Audit of the Oversight of Operation Allies Welcome Global Contingency Services Contract at Marine Corps Base Quantico  |                             |
| <b>Report:</b> \$30.1 Million Total Questioned Costs   |                             |
| The DoD OIG issued a report stating that Navy contracting personnel did not fully execute contract administration responsibilities at Marine Corps Base Quantico. Navy contracting personnel did not ensure the contractor provided sufficient supporting documentation for incurred costs supporting the relocation of Afghan evacuees, which prevented the administrative contracting officer from adequately reviewing contractor invoices. As a result, the Navy did not verify whether \$30.1 million in payments made to the contractor, excluding the award fee, were allowable, allocable, and reasonable. |                             |

|   |                          |

| <b>Audit Report No. DODIG-2023-067</b>  | <b>Date:</b> May 9, 2023 |
| <b>Subject:</b> Audit of the Oversight of ENCORE III Information Technology Service Task Orders   |                          |
| <b>Report:</b> \$20.1 Million in Funds Put to Better Use <sup>1</sup> ; \$160,013 Total Questioned Costs; and \$7,322 Disallowed Costs  |                          |
| The DoD OIG issued a report identifying \$20.1 million of funds put to better use because Defense Information Systems Agency officials acknowledged that task order HC1028-19-F-6101 was “not contractually viable” and allowed the task order to expire. The performance work statement for this task order required the contractor to provide cybersecurity services valued at \$65.9 million, but the statement did not clearly describe all the services to be performed. DoD Component contracting officer’s representatives did not review contractor interim vouchers to prevent improper payments, and the DoD OIG’s review identified \$167,335 in questioned travel costs. During the audit, a Washington Headquarters Services’ contracting officer disallowed \$7,322 in travel costs from the contractor for task order HQ0034-19-F-0486, which left a balance of \$160,013 in total questioned costs. |                          |

<sup>1</sup> This does not include Funds Put to Better Use that were identified and redacted for security reasons.

| <b>Audit Report No. DODIG-2023-069</b>  | <b>Date:</b> May 9, 2023 |
| <b>Subject:</b> Evaluation of DoD Contracting Officer Actions on DoD Contracts Terminated for Convenience   |                          |
| <b>Report:</b> Potential \$22.3 Million Total Questioned Costs  |                          |
| The DoD OIG issued a report identifying that DoD contracting officers did not document adequate rationale for settling termination costs in accordance with Federal Acquisition Regulations and DoD policy for 17 (27 percent) of the 63 contract terminations reviewed. As a result, DoD contracting officers may have inappropriately reimbursed DoD contractors up to \$22.3 million in unallowable termination costs. |                          |

| <b>Subject:</b> Independent Audit Report on Proposed Amounts in Contractor's Termination Settlement Proposal  |                             |
| <b>Prepared for:</b> U.S. Army Corps of Engineers (USACE)   |                             |
| <b>Report:</b> \$116 Million Total Questioned Costs   |                             |
| The DCAA identified \$116 million in total questioned costs related to direct labor, related party transactions, performance costs, suspension of work and post-termination costs, settlement expenses, and associated profit. The DCAA's significant findings included \$23 million in related party materials and services in noncompliance with Federal Acquisition Regulation (FAR) 31.205-26(e), "Material Costs," because the materials and services were transferred at price rather than cost. Other significant findings included \$70 million of proposed profit directly associated with other unallowable costs, in noncompliance with FAR 31.201-6(a), "Accounting for Unallowable Costs." |                             |

| <b>Report:</b> \$11.4 Million Total Questioned Costs   |                             |
| The DCAA identified \$11.4 million in questioned costs related to computer services, software maintenance repair, and severance costs. The DCAA's significant findings included \$8.7 million in costs related to computer services and \$2.5 million in costs related to computer software maintenance repair. The contractor failed to provide documentation to demonstrate that the costs were reasonable, in noncompliance with FAR 31.201-3, "Determining Reasonableness." A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. |                             |

| <b>Report:</b> \$10.9 Million Total Questioned Costs   |                          |
| The DCAA identified \$10.9 million in questioned retirement benefit costs in noncompliance with FAR 31.201-6(a), "Accounting for Unallowable Costs." The DCAA's significant findings included \$10.8 million in retirement benefit costs which the contractor calculated based on the total compensation history of the employee without regard to statutory compensation limits set forth in FAR 31.205-6(p), "Compensation for Personal Services." The audit team recalculated the costs to account for the statutory compensation limits. |                          |

| <b>Report:</b> \$17.9 Million Total Questioned Costs  |                           |
| <p>The DCAA identified \$17.9 million in questioned costs related to subcontracts, leasehold improvements, and miscellaneous costs. The DCAA’s significant findings included \$15.6 million in subcontract fee costs in noncompliance with FAR 31.201-2, “Determining Allowability.” The contract terms state the contractor may not make a claim to the Government for reimbursement of the subcontract fee. Other significant findings included \$2.3 million in leasehold improvement costs in noncompliance with FAR 31.201-3, “Determining Reasonableness.” The contractor improperly expensed the costs rather than capitalizing them in accordance with its established practices.</p> |                           |

| <p>The DCAA identified \$17.3 million in questioned award fees and costs related to delays and disruptions, which the contractor asserted were caused by the Government. The DCAA’s significant findings included \$11.7 million in award fees in noncompliance with FAR 31.201-2(d), “Determining Allowability.” The contractor did not adequately support that the award fee would have been awarded based on performance regardless of any action or inaction on the part of the Government. Other significant findings included \$5.6 million in costs related to asserted delays and disruptions because the contractor failed to accurately account for the costs it believes the Government is liable for, in noncompliance with FAR 31.201-4, “Determining Allocability,” and Defense Federal Acquisition Regulation Supplement (DFARS) 252.243-7001, “Pricing of Contract Modifications.”</p> |                           |

A clause in the contract specifically states transactions related to materials, purchased items, rentals or leases of equipment, or cost overruns were not eligible to receive fees. The DCAA found the contractor had inappropriately included fees on \$376.2 million of billed costs in the amount of \$13.8 million for delivery order DO 0422 and \$362.3 million for delivery order DO 0454, resulting in an overbilling of fees in the amount of \$1.1 million and \$36.4 million, respectively.</p> |                           |

The DCAA's significant findings included \$18.1 million of subcontract costs in noncompliance with FAR 31.201-2(a)(4) and FAR 31.201-2(d), "Determining Allowability." The subcontract agreements required minimum labor qualifications; however, the contractor was unable to provide resumes to demonstrate that the minimal labor requirements were met. Other significant findings included \$1.9 million of subcontract costs in noncompliance with FAR 31.201-3, "Determining Reasonableness." The contractor asserted it awarded the subcontract in question based on a competitive bid; however, the contractor only obtained and provided one quote and was unable to provide other documentation supporting the reasonableness of the subcontract costs.</p> |                           |

The DCAA's significant findings included \$55.4 million in direct labor costs and \$13.7 million in other direct costs (ODC) in noncompliance with FAR 31.201-2(d), "Determining Allowability," because the contractor was unable to provide detailed cost schedules to support its claimed cost. Other significant findings included \$10.4 million in ODC for which the contractor failed to provide essential supporting documentation, in noncompliance with FAR 31.201-3(a), "Determining Reasonableness," and \$33.4 million in indirect costs that were directly associated with unallowable direct costs, in noncompliance with FAR 31.201-6, "Accounting for Unallowable Costs."</p> |                           |

The DCAA's significant findings included \$71 million of profit in noncompliance with FAR 52.242-14, "Suspension of Work"; FAR 49.202, "Profit"; and FAR 31.201-2(d), "Determining Allowability." The contractor overstated the costs used in its profit calculations, applied profit to unallowable costs, and proposed profit on costs incurred after the contract termination. Other significant findings included \$66.7 million of direct materials due to the contractor's application of related party profit on inter-organizational transfers, in noncompliance with FAR 31.205-26(e), "Material Costs," and FAR 31.201-2(d), "Determining Allowability." Other findings included \$36.8 million of owned equipment costs in noncompliance with contract terms and FAR 31.105(d)(2)(i)(B), "Construction and Architect-Engineer Contracts." | The DCAA identified \$52 million in questioned direct material costs, directly associated indirect costs, and unallowable executive compensation. The DCAA's significant findings included \$44.7 million in direct materials that were not reasonable or allocable to government contracts due to an identified failure to issue and consume items without a need to fulfill the production plan. Other significant findings included \$7 million in carrying costs of excess inventory that the contractor failed to dispose of and credit the Government contracts. Both areas of the DCAA's significant findings were noncompliant with FAR 31.201-3(a), "Determining Reasonableness"; FAR 31.201-4, "Determining Allocability"; and DFARS 252.242-7004, "Material Management and Accounting System." |                            |

| <b>Report:</b> \$208.7 Million Total Questioned Costs (\$46.2 Million for FY 2020 And \$162.5 Million for FY 2021)   |                            |
| <p>The DCAA identified \$208.7 million in questioned costs related to severance pay, partner retirement costs, compensation and related fringe benefits, and the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The DCAA's significant findings included \$113 million in severance pay in noncompliance with FAR 31.205-6(j)(6), "Compensation for Personal Services," and FAR 31.205-6(g), "Severance Pay." Other significant findings included \$10.6 million of costs related to the CARES Act in noncompliance with FAR 31.201-2, "Determining Allowability"; FAR 31.201-3, "Determining Reasonableness"; FAR 31.201-4, "Determining Allocability"; DFARS 231.205-79, "CARES Act Section 3610 – Implementation"; and FAR 31.205-13, "Employee Morale, Health, Welfare, Food Service and Dormitory Costs and Credits," because the contractor did not meet CARES Act requirements and the costs were not specifically based on any contract terms. Additional significant findings included \$33.5 million in partner-defined benefit pensions which were either directly associated with other unallowable costs, in noncompliance with FAR 31.205-6, "Compensation for Personal Services," or unreasonable, in noncompliance with FAR 31.201-3, "Determining Reasonableness."</p> |                            |

| <p>The DCAA identified \$25.5 million in questioned costs related to direct labor, associated fringe and overhead costs, other direct costs (ODC), subcontract costs, general and administrative (G&amp;A) costs, fee/profit, and bond costs. The DCAA's significant findings included \$8.4 million in direct labor costs because the contractor did not appropriately allocate the costs of maintaining general conditions on-site to the claim, in noncompliance with FAR 31.201-2, "Determining Allowability," and FAR 31.201-3, "Determining Reasonableness." Other significant findings included \$6.1 million in ODC because the contractor did not appropriately allocate the costs of maintaining general conditions to the benefiting claims and claimed duplicate costs in noncompliance with FAR 31.201-2, "Determining Allowability"; FAR 31.201-3, "Determining Reasonableness"; and FAR 31.201-4, "Determining Allocability."</p>   |                            |

| <b>Report:</b> \$22.1 Million Recommended Price Adjustment   |                            |
| <p>The DCAA identified a \$22.1 million recommended price adjustment due to the contractor's material noncompliance with the requirements of 10 U.S.C. Chapter 271, "Cost or Pricing Data: Truth in Negotiations." The DCAA found that the contractor failed to submit current direct labor hour data, subcontract costs, and Inter-organizational Work Authority (IWA) direct material costs that were reasonably available prior to price agreement between itself and the Government. As a result, the DCAA recommended target cost adjustments of \$5.3 million in direct labor, \$637,000 in subcontract costs, \$2.5 million in IWA direct material costs, \$10.9 million in associated indirect costs, and \$2.6 million in profit.</p>   |                            |

| The DCAA identified \$27.5 million in questioned costs related to group expenses, corporate adjustments, factory overhead, general and administrative (G&A) costs, cost of money, engineering overhead, and total direct costs affecting contracts. The DCAA’s significant findings included \$6.7 million in questioned costs related to Manufacturing Operations G&A, noncompliant with FAR 31.201-4, “Determining Allocability,” as the costs were incurred to administer commercial contracts. Other significant findings included \$2.1 million in direct costs in noncompliance with FAR 31.201-3, “Determining Reasonableness,” related to parts used to repair different contract line items than were charged. Additional significant findings included \$1.9 million in questioned costs in noncompliance with FAR 31.205-10(b)(1), “Cost of Money,” and 48 Code of Federal Regulation (CFR) 9904.414-40(b), “Cost Accounting Standard - Cost of Money as an Element of the Cost of Facilities Capital,” due to the use of an incorrect treasury rate calculating cost of money. |                              |

## Contract Audits and Information<sup>1</sup>

<sup>1</sup> This schedule represents DCAA contract audit reports issued during the 6-month period ending September 30, 2023. This schedule includes any audits that the DCAA performed on a reimbursable basis for other government agencies and the associated statistics that may also be reported in other OIGs' Semiannual Reports to Congress. Both questioned costs and funds put to better use represent potential cost savings. Because of limited time between availability of management information system data and legislative reporting requirements, there is minimal opportunity for the DCAA to verify the accuracy of reported data. Accordingly, submitted data is subject to change based on subsequent DCAA authentication. The total number of assignments completed during the 6-month period ending September 30, 2023, was 4,503. Some completed assignments do not result in a report issued because they are part of a larger audit or because the scope of the work performed does not constitute an audit or attestation engagement under generally accepted government auditing standards, so the number of audit reports issued is less than the total number of assignments completed.

<sup>2</sup> This schedule represents audits performed by the DCAA summarized into four principal categories, which are defined as:

**Incurring Costs** – Audits of direct and indirect costs charged to Government contracts to determine that the costs are reasonable, allocable, and allowable as prescribed by the Federal Acquisition Regulation, Defense Federal Acquisition Regulation Supplement, and provisions of the contract. Also included under incurred cost audits are Operations Audits, which evaluate a contractor's operations and management practices to identify opportunities for increased efficiency and economy; and Special Audits, which include audits of terminations and claims.

**Forward Pricing Proposals** – Audits of estimated future costs of proposed contract prices, proposed contract change orders, costs for re-determinable fixed-price contracts, and costs incurred but not yet covered by definitized contracts.

**Cost Accounting Standards** – A review of a contractor's cost impact statement required due to changes to disclosed practices, failure to consistently follow a disclosed or established cost accounting practice, or noncompliance with a cost accounting standard regulation.

**Defective Pricing** – A review to determine whether contracts are based on current, complete, and accurate cost or pricing data (the Truth in Negotiations Act).

<sup>3</sup> Questioned costs represent costs that the DCAA has questioned because they do not comply with rules, regulations, laws, or contractual terms.

<sup>4</sup> Represents recommendations associated with Operations Audits where the DCAA has presented to a contractor that funds could be used more effectively if management took action to implement cost reduction recommendations.

<sup>5</sup> Represents potential cost reductions that may be realized during contract negotiations.

<sup>6</sup> Defective pricing dollars examined are not reported because the original value was included in the audits associated with the original forward pricing proposals.

<sup>1</sup> We are reporting on the status of significant post-award contract audits in accordance with DoD Instruction 7640.02, “Policy for Follow-up on Contract Audit Reports,” April 15, 2015. The data in the table represents the status of DCAA post-award reports, including reports on incurred costs, defective pricing, equitable adjustments, accounting and related internal control systems, and Cost Accounting Standard noncompliances. The DoD Components provided the data. We have not verified the accuracy of the provided data.

<sup>2</sup> Contracting officers assigned to take action on these reports met the resolution and disposition time frames established by OMB Circular A-50, “Audit Follow-up,” and DoD Instruction 7640.02. OMB Circular A-50 and DoD Instruction 7640.02 require that contracting officers resolve audit reports within 6 months. Generally, contracting officers resolve an audit when they determine a course of action that they document in accordance with agency policy. DoD Instruction 7640.02 also requires that a contracting officer disposition an audit report within 12 months. Generally, contracting officers disposition a report when they negotiate a settlement with the contractor, or they issue a final decision pursuant to the Disputes Clause.

<sup>3</sup> Contracting officers have not resolved these overage reports within the 6-month resolution requirement.

<sup>4</sup> Contracting officers have not dispositioned these overage reports within the 12-month disposition requirement.

<sup>5</sup> Contracting officers have deferred action on these reports until a criminal investigation is complete.

<sup>6</sup> Contracting officers have deferred action on these reports until related ongoing litigation is complete.

<sup>7</sup> Costs Questioned represents the amount of audit exception, potential cost avoidance, or recommended price adjustment in the audit report.

<sup>8</sup> Costs Sustained represents the questioned costs, potential cost avoidance, or recommended price adjustment sustained by contracting officers. Contracting officers report Costs Sustained when they disposition a report.

<sup>9</sup> For the 6-month period ending September 30, 2023, contracting officers sustained \$385.9 million (27.5 percent) of the \$1,401.5 million questioned in the dispositioned reports. The 27.5 percent sustention rate represents a small increase from the 27.1 percent rate reported for the 6-month period ending March 31, 2023.

## Final Actions

The table shows the status of DoD management actions on DoD OIG-issued audit and evaluation reports and the total dollar value of recommendations with disallowed costs and funds to be put to better use.

| Status  | Disallowed Costs             | Funds to be Put to Better Use |
|---|------------------------------|-------------------------------|
| Final action was taken on 46 audit and evaluation reports during the reporting period                                   |                              |                               |
| (i) Dollar value of disallowed costs  | \$1,020,728                  |                               |
| (ii) Dollar value of costs not disallowed   | \$30,100,026                 |                               |
| (iii) Dollar value of disallowed costs and funds to be put to better use not yet recovered or written off by management | \$328,582,791                | \$0                           |
| (iv) Dollar value of recommendations that were completed  | \$20,835,126                 | \$21,001,341 <sup>1</sup>     |
| (v) Dollar value of recommendations that management concluded should not or could not be implemented or completed       | \$0                          | \$0                           |
| No final action had been taken on 301 audit and evaluation reports by the end of the reporting period <sup>2</sup>      | \$5,591,258,869 <sup>3</sup> | \$1,643,310,969 <sup>4</sup>  |

<sup>1</sup> The full amount of funds to be put to better use achieved is not being reported as it contained amounts that are Controlled Unclassified Information.

<sup>2</sup> Total value of disallowed costs and funds to be put to better use cannot be determined until the recommended management actions are completed.

<sup>3</sup> Of the 301 open reports, there were 15 reports with estimated monetary benefits of \$5.6 billion in questioned costs. Total monetary benefits recovered cannot be determined until the recommended actions are completed.

<sup>4</sup> Of the 301 open reports, there were 8 reports with estimated monetary benefits of \$1.6 billion in funds that could be put to better use. Total monetary benefits recovered cannot be determined until the recommended actions are completed.

**Final Action** – The completion of all actions that the management of an establishment has concluded, in its management decision, are necessary with respect to the findings and recommendations included in an audit or evaluation report. In the event that the management of an establishment concludes no action is necessary, final action occurs when a management decision has been made.

**Disallowed Cost** – A questioned cost that management, in a management decision, has sustained or agreed should not be charged to the Government.

**Funds to be Put to Better Use** – Funds that could be used more efficiently if management of an entity took actions to start and complete the recommendation, including: (1) reductions in outlays; (2) deobligation of funds from programs or operations; (3) withdrawal of interest subsidy costs on loans or loan guarantees, insurance, or bonds; (4) costs not incurred by implementing recommended improvements related to the operations of the entity, a contractor, or grantee; (5) avoidance of unnecessary expenditures noted in pre-award reviews of contract or grant agreements; or (6) any other savings that specifically are identified.

## Statements for Recommendations Made Before the Reporting Period for Which Final Action Had Not Been Taken as of September 30, 2023<sup>1</sup>

**Report:** D-2006-077, DoD Personnel Security Clearance Process at Requesting Activities, 4/19/2006

**Reason Action Not Completed:** The Army is revising Army Regulation 380-67, "Personnel Security Program," January 24, 2014, to include information on security clearance systems and training requirements. The regulation is undergoing another Army-wide staffing review due to the addition of new guidelines and the modification of current procedures. The Army Publishing Directorate is reviewing the changes based on new directorate requirements, which could take 9 months to complete. Estimated completion date is December 31, 2023.

**Principal Action Office:** Army

**Report:** D-2009-062, Internal Controls over DoD Cash and Other Monetary Assets, 3/25/2009

**Reason Action Not Completed:** The Office of the Under Secretary of Defense (Comptroller)/Chief Financial Officer, DoD, established five disbursement cash accounts but has not provided evidence to support that it has been documenting cash balances held outside of the U.S. Treasury. The Office of the Under Secretary of Defense (Comptroller)/Chief Financial Officer, DoD, established a working group with the Office of Management and Budget, the U.S. Treasury, and the Defense Finance and Accounting Service to address these recommendations and additional concerns. The working group took action, but has not completed all four phases of its plan. Estimated completion date is March 30, 2024.

**Principal Action Office:** Under Secretary of Defense (Comptroller)/Chief Financial Officer, DoD

**Report:** D-2011-060, Marine Corps Inventory of Small Arms Was Generally Accurate but Improvements Are Needed for Related Guidance and Training, 4/22/2011

**Reason Action Not Completed:** The Marine Corps issued Marine Administrative Message 329/21 on July 7, 2021, to address arms, ammunition, and explosives physical security policy; provide small

arms accountability guidance; and identify required training and education. However, the Marine Corps has not updated Marine Corps Order 5530.14A, "Marine Corps Physical Security Program Manual," June 5, 2009, to ensure it is consistent with Marine Corps Order 8300.1D, "Marine Corps Serialized Small Arms/Light Weapons Accountability Program (MCSSAAP)," February 16, 2012.

**Principal Action Office:** Marine Corps

**Report:** DODIG-2013-031, Audit of the F-35 Lightning II Autonomic Logistics Information Systems (ALIS), 12/10/2012

**Reason Action Not Completed:** The F-35 Joint Program Office has not provided a modified contract to include security architecture tests for all systems that affect ALIS and any new systems that process or maintain Government data. In addition, the F-35 Joint Program Office did not provide the checklists used for software approval.

**Principal Action Office:** F-35 Joint Program Office

**Report:** DODIG-2013-070, Defense Agencies Initiative Did Not Contain Some Required Data Needed to Produce Reliable Financial Statements, 4/19/2013

**Reason Action Not Completed:** The Director, Business Processes and Systems Modernization, stated that until the majority of DoD systems are upgraded to collect costs based on missions and output performance measures, revision of the DoD Financial Management Regulation to report the Statement of Net Cost in any other manner would be misleading or confusing. The Director also stated that the office will leverage a pilot program with the U.S. Treasury to produce standardized financial statements across the DoD. If successful, the pilot program could be used as the new Statement of Net Cost beginning in third quarter FY 2023. Throughout FY 2023, the Office of the Under Secretary of Defense (Comptroller)/Chief Financial Officer, DoD, plans to remap the Statement of Net Cost, reconcile data against the Statement of Net Cost, and start a working group to implement the remapping across DoD Components. Estimated completion date is September 30, 2023.

**Principal Action Office:** Under Secretary of Defense (Comptroller)/Chief Financial Officer, DoD

<sup>1</sup> We excluded 65 reports because a management decision was made in the past year or a management decision had not been made as of September 30, 2023. Dollar value of questioned costs and funds that could be put to better use are noted, as applicable.

For summaries that do not include an estimated completion date, the Principal Action Office did not provide a date.

---

**Report:** DODIG-2013-097, Improvements Needed in the Oversight of the Medical-Support Services and Award-Fee Process Under the Camp As Sayliyah, Qatar, Base Operation Support Services Contract, 6/26/2013

**Reason Action Not Completed:** The Army suspended revision of Army Regulation 40-68 due to the pending publication of updated DoD Instruction 6025.13, “Medical Quality Assurance and Clinical Quality Management in the Military Health System.” The DoD issued the updated DoD Instruction 6025.13 in July 2023; therefore, the Army will update Army Regulation 40-68. Estimated completion date is August 31, 2025.

**Principal Action Office:** Army

---

**Report:** DODIG-2013-100, Contract Administration of the Subsistence Prime Vendor Contract for Afghanistan Improved, but Additional Actions are Needed, 7/2/2013

**Potential Monetary Benefits:** \$631,700,000 (Funds Put to Better Use)

**Reason Action Not Completed:** The recovery of premium transportation fees and refund to the Army has been in litigation. The U.S. Court of Appeals for the Federal Circuit upheld the Defense Logistics Agency’s claim against the contractor to recover premium transportation fees; however, the contractor may proceed to seek a judicial review of the decision by a higher court.

**Principal Action Office:** Defense Logistics Agency

---

**Report:** DODIG-2013-112, Assessment of DoD Long-Term Intelligence Analysis Capabilities, 8/5/2013

**Reason Action Not Completed:** Report is classified.

**Principal Action Office:** Under Secretary of Defense for Intelligence and Security

---

**Report:** DODIG-2013-130, Army Needs to Improve Controls and Audit Trails for the General Fund Enterprise Business System Acquire-to-Retire Business Process, 9/13/2013

**Reason Action Not Completed:** The Business Intelligence team within the General Fund Enterprise Business System (GFEBS) is coordinating with the product director and key stakeholders to finalize the methodology and document the requirements, fields, and variables necessary for developing the Real Property Asset Management Business Intelligence report. The Army is executing a 3-year plan to

validate the Accountable Property System of Record data for all real property assets. An independent public accounting firm closed Notice of Findings and Recommendations GG-2022-15 during FY 2023; however, a material amount of the real property universe balance continues to come from the Planning Resources for Infrastructure Development and Evaluation database instead of GFEBS. In addition, the independent public accounting firm issued Notice of Findings and Recommendations GG-2023-23, Real Property Population Invalid Items, which identifies data quality issues with the real property population.

**Principal Action Office:** Army

---

**Report:** DODIG-2014-049, DoD Considered Small Business Innovation Research Intellectual Property Protections in Phase III Contracts, but Program Improvements Are Needed, 3/27/2014

**Reason Action Not Completed:** The Small Business and Technology Partnerships Office collaborated with the Air Force Small Business Office and the Small Business Administration to develop clarifying guidance for several Phase III-related issues. Defense Pricing and Contracting issued a deviation memorandum to the DoD acquisition community as an interim solution to enable contracting officers to include the updated intellectual property protection language in Small Business Innovation Research contracts. On December 19, 2022, the Defense Acquisition Regulation Council published a proposed Defense Federal Acquisition Regulation Supplement rule (Case D2019-D043) to address the issue. The public comment period was extended to March 20, 2023. Once the Supplement is updated, the Small Business and Technology Partnerships Office will work with Defense Pricing and Contracting to make the DoD Small Business Innovation Research/Small Business Technology Transfer community aware that the change is in effect and ready for implementation. Estimated completion date is October 31, 2023.

**Principal Action Office:** Under Secretary of Defense for Research and Engineering

---

**Report:** DODIG-2014-060, An Assessment of Contractor Personnel Security Clearance Processes in the Four Defense Intelligence Agencies, 4/14/2014

**Reason Action Not Completed:** The Under Secretary of Defense for Intelligence and Security delayed updates to DoD Manual 5200.02, “Procedures for the DoD Personnel Security Program (PSP),” October 29, 2020, due to the requirement to incorporate investigation

standards and continuous vetting. National-level policy requirements are still in development. Estimated completion date is September 30, 2023.

**Principal Action Office:** Under Secretary of Defense for Intelligence and Security, DoD Office of General Counsel

---

**Report:** DODIG-2014-077, Hotline Complaint Regarding the Settlement of the Pratt & Whitney Commercial Engine Cost Accounting Standards Case, 5/30/2014

**Potential Monetary Benefits:** \$210,968,414 (Questioned Costs)

**Reason Action Not Completed:** In an Armed Services Board of Contract Appeals opinion, the Defense Contract Management Agency was prohibited from recouping questioned costs from a Government claim against the contractor for alleged noncompliance with Cost Accounting Standard 418. In December 2022, the Department of Justice, representing the Defense Contract Management Agency, filed an appeal of the Armed Services Board of Contract Appeals decision at the U.S. Court of Appeals for the Federal Circuit. Opening briefs were due in August 2023; therefore, this matter is in active litigation.

**Principal Action Office:** Defense Contract Management Agency

---

**Report:** DODIG-2014-090, Improvements Needed in the General Fund Enterprise Business System Budget-to-Report Business Process, 7/2/2014

**Reason Action Not Completed:** The Office of the Assistant Secretary of the Army (Financial Management and Comptroller) has not configured the General Fund Enterprise Business System and other financial systems and processes to comply with the U.S. Standard General Ledger requirements at the transaction level. In addition, the Army has not fully analyzed all financial processes to determine whether transactions are recorded in accordance with U.S. Standard General Ledger requirements. An independent public accounting firm determined that the condition identified by the DoD OIG still exists and issued Notice of Findings and Recommendations GF-2023-02, Legacy Systems non-U.S. Standard General Ledger Accounts (Federal Financial Management Improvement Act Compliance), which identifies that the Army uses non-U.S. Standard General Ledger transaction codes to record transactional detail within the Standard Financial System and Standard Operations and Maintenance Army Research and Development System.

**Principal Action Office:** Army

---

**Report:** DODIG-2014-093, Inspection of the Armed Forces Retirement Home, 7/23/2014

**Reason Action Not Completed:** In October 2022, the Armed Forces Retirement Home (AFRH) submitted a draft update of DoD Instruction 1000.28 that included its process for applying applicable DoD and VA standards that would be followed by the AFRH with regard to non-medical operations. The AFRH has not finalized and published the revised DoD Instruction 1000.28.

**Principal Action Office:** Armed Forces Retirement Home

---

**Report:** DODIG-2014-100, Assessment of DoD Wounded Warrior Matters: Selection and Training of Warrior Transition Unit and Wounded Warrior Battalion Leaders and Cadre, 8/22/2014

**Reason Action Not Completed:** The Marine Corps has not provided evidence to support: (1) the results of the Wounded Warrior Regiment staffing and manning requirements (based on the operational planning team efforts and independent review of current operating resources); (2) the selection, screening, and assignment process for Enlisted Active Component Marines filling Wounded Warrior Battalions positions; or (3) a standard process whereby regiment and battalion leaders can interview potential Enlisted Active Component Marine Corps candidates for Wounded Warrior Battalions to ensure they are the “best fit” and most qualified.

**Principal Action Office:** Marine Corps

---

**Report:** DODIG-2014-101, Delinquent Medical Service Accounts at Brooke Army Medical Center Need Additional Management Oversight, 8/13/2014

**Potential Monetary Benefits:** \$69,184,113 (Funds Put to Better Use)

**Reason Action Not Completed:** Officials from the Defense Health Agency and the Military Service Uniform Business Office are working together to develop a plan to review and process the delinquent medical service accounts debt.

**Principal Action Office:** Assistant Secretary of Defense for Health Affairs

---

**Report:** DODIG-2014-121, Military Housing Inspections—Japan, 9/30/2014

**Reason Action Not Completed:** On February 1, 2022, the Office of the Assistant Secretary of Defense for Readiness issued the policy memorandum, “Standards and Guidance for Managing Environmental Health

Hazards in Department of Defense Housing,” which provides guidance for environmental health and safety personnel supporting military installation management of environmental health hazards in both accompanied and unaccompanied DoD housing. The Military Departments are required to implement and follow the general procedures for managing DoD residents’ concerns for potential environmental health risks in DoD housing and apply the specific standards, guidance, and procedures for managing moisture, mold, lead-based paint, radon, and asbestos-containing materials. These processes, standards, and guidance will be incorporated into updates of DoD Instruction 6055.01, “DoD Safety and Occupational Health (SOH) Program,” October 14, 2014, and DoD Instruction 6055.05, “Occupational and Environmental Health (OEH),” November 11, 2008, by March 31, 2024.

**Principal Action Office:** Under Secretary of Defense for Personnel and Readiness

---

**Report:** DODIG-2015-002, Assessment of DoD-Provided Healthcare for Members of the United States Armed Forces Reserve Components, 10/8/2014

**Reason Action Not Completed:** The Defense Health Agency continues to work with Service officials, who believe standardized DoD line of duty forms should remain at the Service level. An ultimate decision to have a DoD form accompanying a Service Component-specific DoD Instruction and processes may be unattainable and the standardized form would remain at the Service level. Estimated completion date is December 31, 2023.

**Principal Action Office:** Under Secretary of Defense for Personnel and Readiness

---

**Report:** DODIG-2015-016, Department of Defense Suicide Event Report (DoDSER) Data Quality Assessment, 11/14/2014

**Reason Action Not Completed:** The Office of the Assistant Secretary of Defense for Health Affairs has not implemented guidance that requires each suicide event involving a member of a covered Military Service to be reviewed by a multidisciplinary board established at the command or installation level, or by the Chief of the covered Military Service. The DoD OIG recommendations to update guidance and procedures are now combined with the DoD’s actions to meet the requirements under the FY 2021 National Defense Authorization Act pertaining to suicide events. A new DoD instruction entered the Washington Headquarters

Services coordination process in early 2023. The DoD instruction is expected to be published by December 29, 2023.

**Principal Action Office:** Assistant Secretary of Defense for Health Affairs

---

**Report:** DODIG-2015-056, Opportunities to Improve the Elimination of Intragovernmental Transactions in DoD Financial Statements, 12/22/2014

**Reason Action Not Completed:** The Under Secretary of Defense (Comptroller)/Chief Financial Officer, DoD, is deploying the U.S. Treasury’s G-Invoicing tool as the long-term solution for the exchange of buyer/seller transactions. The G-Invoicing tool has had several developmental enhancements and changes to the current functionality. While base vendor solutions were first delivered in March 2021 and continued through the remainder of FY 2022, additional customization is needed to meet DoD requirements, extending the timeline. Estimated completion date is October 31, 2024.

**Principal Action Office:** Under Secretary of Defense (Comptroller)/Chief Financial Officer, DoD

---

**Report:** DODIG-2015-057, Audit of a Classified Program, 12/19/2014

**Reason Action Not Completed:** Report is classified.

**Principal Action Office:** Classified

---

**Report:** DODIG-2015-062, DoD Needs Dam Safety Inspection Policy to Enable the Services to Detect Conditions That Could Lead to Dam Failure, 12/31/2014

**Reason Action Not Completed:** The Office of the Deputy Assistant Secretary of Defense for Construction is working with the U.S. Army Corps of Engineers to develop and field the BUILDER Sustainment Management System’s inspection module for water retention structures. A module within the system will incorporate the Federal Guidelines for Dam Safety. Estimated completion is FY 2025.

**Principal Action Office:** Under Secretary of Defense for Acquisition and Sustainment

---

**Report:** DODIG-2015-064, Assessment of Intelligence Support to In-Transit Force Protection, 1/2/2015

**Reason Action Not Completed:** The Office of the Under Secretary of Defense for Intelligence and Security has not provided a revised memorandum of understanding

between the Bureau of Diplomatic Security, the Department of State, and the Under Secretary of Defense for Intelligence and Security that reflects DoD policy and requirements. The draft memorandum of understanding is in formal coordination.

**Principal Action Office:** Under Secretary of Defense for Intelligence and Security

---

**Report:** DODIG-2015-065, Evaluation of the Defense Sensitive Support Program, 1/5/2015

**Reason Action Not Completed:** Report is classified.

**Principal Action Office:** Classified

---

**Report:** DODIG-2015-070, Evaluation of Alternative Compensatory Control Measures Program, 1/28/2015

**Reason Action Not Completed:** Report is classified.

**Principal Action Office:** Under Secretary of Defense for Policy

---

**Report:** DODIG-2015-090, Evaluation of Aircraft Ejection Seat Safety When Using Advanced Helmet Sensors, 3/9/2015

**Reason Action Not Completed:** The Air Force continues to coordinate updates to the Joint Service Specification Guide 2010-11, “Crew Systems, Emergency Egress Handbook,” October 1998, to reflect changes in policy and technology and is working through differences on interpretation of requirements and their impact on escape system performance. Estimated completion date is November 30, 2023.

**Principal Action Office:** Air Force

---

**Report:** DODIG-2015-111, F-35 Engine Quality Assurance Inspection, 4/27/2015

**Reason Action Not Completed:** The F-35 Joint Program Office has not awarded the Lot 15 to 17 Propulsion Production Contract, which was to include changes to the requirements of the F135 Critical Safety Item Statement of Work. These changes should ensure that the program processes and specifications meet the intent of the Joint Critical Safety Item Instruction and supplemental guidance of the Joint Aeronautical Commanders Group Aviation Critical Safety Item Management Handbook. The definitization for Lot 15 to 17 has been delayed multiple times, which led the F-35 Joint Program Office to request the separation of proposed requirements to allow for an expedited proposal process for Critical Safety Item requirements. The F-35 Joint Program Office plans to include the

Critical Safety Item Statement of Work update into the contract through a follow-on modification. Estimated completion date is October 31, 2023.

**Principal Action Office:** F-35 Joint Program Office

---

**Report:** DODIG-2015-114, Navy Officials Did Not Consistently Comply With Requirements for Assessing Contractor Performance, 5/1/2015

**Reason Action Not Completed:** Naval Sea Systems Command has not provided policies that require a 120-day Contractor Performance Assessment Reporting System (CPARS) reporting requirement. In addition, the Naval Sea Systems Command has not developed and implemented procedures for contract registration, including procedures to validate that personnel properly register contracts or to require CPARS training modules on quality and narrative writing as well as periodic refresher training. Estimated completion date is September 30, 2023.

**Principal Action Office:** Navy

---

**Report:** DODIG-2015-128, Army Needs to Improve Processes Over Government-Furnished Material Inventory Actions, 5/21/2015

**Reason Action Not Completed:** The Army continues to develop the Total Asset Visibility–Contractor Logistics Modernization Program module, which will track receipt, acceptance, and consumption of government-furnished material. However, such inventory will not be appropriately valued until the Army establishes a deemed cost to support opening balances. In addition, the Army will need to direct contractor use through a contract clause, which will not be inserted into appropriate contracts until their current periods of performance have been completed. Estimated completion date is September 30, 2025.

**Principal Action Office:** Army

---

**Report:** DODIG-2015-142, Navy’s Contract/Vendor Pay Process Was Not Auditable, 7/1/2015

**Reason Action Not Completed:** Navy officials are staffing a draft instruction that will update the Navy Operational Test Readiness Review process. Since August 2020, the Navy Enterprise Resource Planning system has implemented new processes and functionality to ensure timely processing of Wide Area Work Flow transactions for firm-fixed-priced services, source acceptance material contracts, and grants. These newly implemented processes ensure compliance with the Statement of Federal

Financial Accounting Standards 1. In addition, the Navy is updating the Wide Area Work Flow interface with the Navy Enterprise Resource Planning system to accepted standards. Additional functionality is required for destination acceptance material and contract financing-type contracts. Implementation of the remaining functionality has been delayed to allow the Navy to complete other strategic efforts for system migrations. Estimated completion date is November 30, 2024.

**Principal Action Office:** Navy

---

**Report:** DODIG-2015-143, Patriot Express Program Could Be More Cost-Effective for Overseas Permanent Change of Station and Temporary Duty Travel, 7/6/2015

**Reason Action Not Completed:** The Navy Personnel Command must implement remaining corrective actions to appropriately staff Navy passenger transportation offices and comply with revised policy in Office of the Chief of Naval Operations Instruction 4650.15C, “Navy Passenger Travel,” September 22, 2020. The Navy Personnel Command has secured funding and is working to advertise and hire the required personnel to fill existing vacancies at the Navy Passenger Transportation offices and resume implementation efforts for remaining corrective actions. The Naval Supply Systems Command and Navy Personnel Command will reevaluate the status of personnel actions and training to determine an implementation schedule by December 1, 2024.

**Principal Action Office:** Navy

---

**Report:** DODIG-2015-148, Rights of Conscience Protections for Armed Forces Service Members and Their Chaplains, 7/22/2015

**Reason Action Not Completed:** The Navy has not finalized revisions to Navy Instruction 1730.08B, “Accommodation of Religious Practices,” March 28, 2021, to include the updated guidance regarding religious accommodations in DoD Instruction 1300.17, “Religious Liberty in the Military Services,” September 1, 2020. Estimated completion date is October 31, 2023.

**Report:** DODIG-2015-181, Continental United States Military Housing Inspections—Southeast, 9/24/2015

**Reason Action Not Completed:** The Assistant Secretary of the Army for Installations, Energy, and Environment completed initial staffing of draft Army Regulation 210-XX to ensure that Army publications properly and consistently address radon assessment and mitigation requirements. Army Regulation 210-XX is targeted for issue by September 30, 2023. Lack of funding has delayed implementation of the Navy’s last remaining corrective action to address fire-protection deficiencies.

**Report:** DODIG-2017-123, The Troops-to-Teachers Program, 9/28/2017

**Reason Action Not Completed:** All efforts to implement corrective actions were paused due to the Defense-Wide Review's decision to end the Troops-to-Teachers program by October 1, 2020. However, on December 27, 2021, the FY 2022 National Defense Authorization Act reauthorized the Troops-to-Teachers program after the DoD ended the program in FY 2021. Congress directed the DoD to continue the program until at least July 1, 2025, and submit a full analysis of the program by December 2022 and annually thereafter. The FY 2022 National Defense Authorization Act did not provide funding to restart the Troop-to-Teachers program, which left the DoD to determine a funding level for the program. The DoD provided no-cost extensions that allowed state or consortium grantees that remained active after the initial cancellation of the program to continue to provide counseling and referral services to program participants across 25 states until May 2023. The DoD has not determined the program funding level for FY 2024.

Financial Officer, DoD

**Report:** DODIG-2020-119, Followup Evaluation of  
DODIG-2014-083, Insufficient Infrastructure Support to  
the Fixed Submarine Broadcast System, 8/21/2020

**Reason Action Not Completed:** Completing the  
review of the Low-Band Universal Communications  
System upgrade was delayed due to COVID-19 travel  
restrictions and protracted Defense Information  
Systems Agency circuit installation timelines.  
The Defense Information Systems Agency delays  
are due to scope changes and cascading delays  
across other Defense Information Systems Agency  
infrastructure efforts. The estimated completion date  
is September 29, 2023.

of Defense for Research and Engineering continues  
to update DoD Instruction 5200.44, "Protection of  
Mission Critical Functions to Achieve Trusted Systems  
and Networks (TSN)," November 5, 2012, to clarify  
supply chain risk management responsibilities for  
legacy systems. The draft instruction is undergoing  
a DoD Office of General Counsel legal sufficiency  
review. In addition, Navy efforts to include supply risk  
management policy language into a new Secretary of  
the Navy instruction for management of technology  
and program protection are ongoing. The proposed  
instruction is undergoing extensive comment and  
review at the working group level.

Installations, 9/4/2020

**Reason Action Not Completed:** The Army Provost  
Marshal General, the Naval Criminal Investigative  
Service, the Chief of Naval Operations, and the  
Marine Corps Criminal Investigation Division continue  
to update internal policies to require that appropriate  
law enforcement response and procedures pertaining  
to serious juvenile-on-juvenile misconduct incidents  
are documented, including all notifications to civilian  
legal authorities and installation commanders and,  
when possible, the legal and administrative actions  
taken. Estimated completion date is March 31, 2024.

The Assistant Secretary of Defense for Health Affairs' Defense Health Agency Administrative Instruction is in the final stages of the publication process. Estimated completion date is October 31, 2023. Given the length of time it would take to update Army Regulation 600-85, "The Army Substance Abuse Program," July 23, 2020, the Office of the Army Deputy Chief of Staff for Personnel is instead publishing an Army Directive that will require annual substance abuse training for commanders and other unit leadership and an annual sample of substance use training. The Air Force continues to update Air Force Instruction 44-121, "Alcohol and Drug Prevention and Treatment (ADAPT) Program," July 18, 2018, for training components to annually review a sample of Service members to determine whether Service members have received their required substance use training. Estimated completion date is January 31, 2024.

**Report:** DODIG-2022-089, Joint Audit of the Department of Defense and the Department of Veterans Affairs Efforts to Achieve Electronic Health Record System Interoperability, 5/5/2022

**Reason Action Not Completed:** The Director of the Federal Electronic Health Record Modernization

Program Office has not developed and implemented a plan for creating interfaces that would allow medical devices to connect and transfer patient health care information to Cerner Corporation's Millennium electronic health care platform (Cerner Millennium). The Director of the Federal Electronic Health Record Modernization Program Office has not developed and implemented a plan to modify Cerner Millennium user roles to ensure users are granted access to only the patient health care information necessary to perform their job responsibilities. The implementation plan will be completed after the Federal Electronic Health Record Modernization Program Office receives the requested authorities and resource allocations from the Military Departments.

**Principal Action Office:** Deputy Secretary of Defense

---

**Report:** DODIG-2022-090, Management Advisory: DoD Health Care Provider Concerns Regarding the Access to Complete and Accurate Electronic Health Records, 5/5/2022

**Reason Action Not Completed:** The Assistant Secretary of Health Affairs has not provided documentation showing the results of the assessment with Military Health System GENESIS users to determine whether the concerns identified by the survey respondents still exist and whether strategies were developed to address the user concerns.

**Principal Action Office:** Assistant Secretary of Defense for Health Affairs

---

**Report:** DODIG-2022-095, Evaluation of Department of Defense Efforts to Address Ideological Extremism Within the Armed Forces, 5/10/2022

**Reason Action Not Completed:** The Army, Air Force and the Under Secretary of Defense for Intelligence and Security have not developed and published policy that includes processes and mechanisms to enable the DoD to identify, quantify, characterize, and report Service member involvement across the Services in prohibited activities that include active advocacy of and active participation in extremist groups and activities.

**Principal Action Office:** Army, Navy, Air Force, Under Secretary of Defense for Intelligence and Security

---

**Report:** DODIG-2022-096, Evaluation of the Air Force Selection Process for the Permanent Location of the U.S. Space Command Headquarters, 5/11/2022

**Reason Action Not Completed:** The Secretary of Defense has not provided evidence that it has directed the Secretary of the Air Force to conduct a review of the

concerns regarding “Full Operational Capability” of the United States Space Command or provided the results of that review. The Air Force has not provided evidence to support that it has completed an analysis of the criteria of “Childcare,” “Housing Affordability,” and “Access to Military/Veteran Support” to verify that the United States Space Command Headquarters basing decision was supported.

**Report:** DODIG-2022-106, Audit of U.S. Army Base Operations and Security Support Services Contract Government-Furnished Property in Kuwait, 6/22/2022

**Reason Action Not Completed:** The Executive Director of the Army Contracting Command–Rock Island, in coordination with the Commander of the 408th Contracting Support Brigade, has not modified the Kuwait Base Operations and Security Support Services contract to transfer all government-furnished property that is authorized on the Logistics Civil Augmentation Program V contract. The 408th Contracting Support Brigade has not modified the Kuwait Based Operations and Security Support Services contract to account for government-furnished property not transferred to the Logistics Civil Augmentation Program V contract or disposed of and recorded.

**Principal Action Office:** Army

---

**Report:** DODIG-2022-107, Audit of the Development and Maintenance of Department of Defense Security Classification Guides, 6/21/2022

**Reason Action Not Completed:** The Under Secretary of Defense for Intelligence and Security has not provided evidence to support that all DoD Components have accounted for all security classification guides (SCG) under their purview to ensure that any SCGs missing from the SCG index are identified and forwarded to the Defense Technical Information Center. The Under Secretary of Defense for Intelligence and Security has not established a process to ensure that DoD Components, original classification authorities, and the Defense Technical Information Center comply with the requirements in DoD Manual 5200.01, volume 1, “DoD Information Security Program: Overview, Classification and Declassification,” July 28, 2020, and DoD Manual 5200.45, “Instructions for Developing Security Classification Guides,” September 15, 2020. In addition, the Under Secretary of Research and Engineering has not established business rules for the SCG index, including an SCG naming, numbering, and formatting convention that will facilitate original classification authority searches of existing classification guidance to enable consistent classification of similar information throughout the DoD.
